THE MUSIC SET

Acoustic guitar and a gravelly voice built for the '90s — Vedder, Staley, Cornell, Weiland, Kevin Martin — with a second gear for soul and blues: Otis Redding, Tracy Chapman, Seal, Alex Clare. Originals in the same register, plus modern songs rearranged to fit it.

FITS

Bars and patios · co-ops and grand openings · private events · opening slots

THE COMEDY SET

Fifteen minutes on relationships, disability, the gym, neighborhood demographics, mental health, and what Taco Bell has done to a man. Material drawn from a life that refuses to stay simple, delivered without asking for sympathy.

SOUND

I bring my own PA and mix myself, or plug into house sound — tell me the room and I'll match it. Fully unplugged works too. Full gear list on request.

FROM THE VENUE

One outlet for a power strip. Room for me and the rig — a cleared corner is enough unplugged. 30 minutes to set up, about the same to load out.

ALSO AVAILABLE

Backing tracks. Music between comedy sets. For a comedy booking I need a microphone and a light, nothing else.
